BPSA - Scholarship for study visit or internship abroad

With the BPSA program STUBE offers financial assistance and counselling to students who intend to do a research project, an internship or research about job opportunities which shows a relationship to development goals.

The seminar primarily deals with planning, organization and analysis of BPSA. This seminar is addressed to students who want to get informed.

However the seminar is obligatory for those intending to apply for BPSA.

After many years abroad, it is often difficult to adapt the acquired knowledge in student's home country. An on-site internship or research project is therefore a great opportunity to do so.

Furthermore, BPSA offers the opportunity to explore the labour market and the confrontation with former familiar environment that may have become strange. BPSA hence serves as a preliminary platform for reintegration.

The seminar aims to inform about the possibilities and conditions of financing BPSA, to allow those who have taken BPSA to share experiences so that those who are intending to do BPSA could learn from these and hence better planning and utilization of the BPSA.

Nevertheless, the seminar offers the opportunity to know other students intending to do BPSA and to share information with those students who have had BPSA already.
